

Assignment – 1

HOUSE SELLER AGARWAL BROKERS

Technologies/tools used for this project

1. CSS
2. HTML
3. JavaScript

Basic working and structure of the webpage:

Home Page of the webpage is made for people to enter person details and later calculate how much money we can get for the particular house

User can enter all kind of information in the site and know what price he can get for his hose and later he can sell his house for that minimum amount of price.
